**Subject:** thank you.. after Service Learning at the PowWow

Beth,

OMG>>> I got the thank you cards the students sent the other day and your letter.. needless to say, it moved me to tears.. thank you.. soooo much! what a very nice gesture on their part to take the time to make those. I shared a few of the cards along with your letter to my board members and they were very impressed to say the least.

Beth, I can't express here how much your group and your own passion/interest has made a difference in making the service-learning placement a success. I would LOVE to work with you again next year for the students being placed. The crew leaders you choose for me, I would like to somehow meet with them as a group prior to the event so they have a better handle on the job tasks they will be doing. I feel that things may run a bit smoother for them overall.

Please let them all know their kind words and interest in the event is very much appreciated.

Thank you...

Alice D., Pro. Dir.
