Subject: Thank you

I am Paulkani Siddela, doing my Master's in Biology here at MSU. I have known Dr. Sandell since Jan 2008, she was my professor for a cultural class. Dr. Sandell has been very helpful whenever I needed some direction. She helped in finding information about teaching license in US. I have a teacher's license from India, but was not sure how it would work here, she has helped get the right information. I am very grateful to her for her availability and willingness to spare time to help. Also, she is now one of the committee members in the research I am working on. She has been very supportive and encouraging.
