Thanks for all your appreciation and hard work in helping guide me on my path. I still remember that day you told me about a "statement of purpose" and filling it in. I believe I'm getting closer to analyzing just what it is I wish to do. Thanks for the letters of recommendations and Happy Holidays! Good luck too on your own projects!

Dear Dr. Sandell, 4-28-12
This semester has really been a treat for me in many ways... physically, emotionally + academically. Thank you for the honor of inviting me to be a member of your Undergrad Research Team. I have been pulled + pushed + shaped in ways I never would have dreamed as I am attending college. I'm being shaped into a woman and future educator that I am proud of. I want to thank you for your guidings in that growth. I look forward to continuing to learn + grow as a member of your team. Having you as a mentor is a treasure (and yes! I started that sentence with an "ing" verb). Sarah Lieske

I would like to take this opportunity to thank you for my Service learning trip to New Ulm. It was very interesting to learn about Native American History and to see some of their Historical landmarks.
It was also quite interesting to learn about your personal background and to share with you about my kind regards
Jane Ruo.
